PARLER, alternative to platforms that restrict or block content.

[Parler Free Speech Social Network](#)

Note

We have deliberately omitted the names of the most common social media platforms in use today. We do that because of concern that those platforms do not promote free speech nor the free exchange of ideas. Most of them censor anyone with whom they do not philosophically, politically, or otherwise agree. The platforms suggested above do not restrict or block content. **Caution should be used when visiting any social media platform.**
